

ABDIRAHMAN MOHAMED ABDIRAHMAN

FRONT-END / SOFTWARE ENGINEER

teyteyley3@gmail.com
+252 615 464 136
github.com/Maamaanka12

Computer Application student at Jamhuriya University of Science and Technology (expected 2029) with hands-on experience building responsive web applications and full-stack, AI-focused projects. Skilled in HTML5, CSS3, JavaScript, Node.js, Express.js, Python, and Microsoft SQL Server, with practical exposure to LLMs, document processing, and AI study tools through hackathon work. Seeking a front-end / software engineering internship where I can contribute to real products while working toward a long-term goal of becoming an AI Engineer.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), Python, SQL, Java (basic)
Front-End	HTML5, CSS3, Tailwind CSS, Responsive Web Design, DOM Manipulation, Event Handling, Flexbox & CSS Grid, Local Storage, JSON
Back-End	Node.js, Express.js, REST API fundamentals, npm, Postman
Databases	Microsoft SQL Server, SQL queries, database design, database-backed web applications
AI	LLM fundamentals, prompt engineering, AI agents (foundational), RAG concepts, API integration
Tools	Git, GitHub, VS Code, Git Bash / Windows command line
Design	Adobe Photoshop, Adobe Illustrator — brand identity, logos, social media and flyer design

PROJECTS

Hotel Management System (HMS)

University Project

HTML5 · Tailwind CSS · JavaScript · Node.js · Express.js · Microsoft SQL Server

- Responsive full-stack system covering a dashboard, room management, guest records, reservations, and payments.
- Node.js/Express API integrated with Microsoft SQL Server (SQL Server Express, Windows Authentication) for hotel data.
- Face-recognition component using OpenCV / face embeddings; responsive layouts for desktop, tablet, and mobile; version control with Git and GitHub.

MemoryMate AI — AI Study Assistant

WemakeDevs Cogneer Hackathon

React · Vite · Node.js · Express.js · MSSQL · JWT · Cogneer · Gemini API

- AI study assistant that ingests uploaded PDF, DOC, DOCX, PPT, and PPTX learning materials and extracts their text.
- Generates summaries, quizzes (multiple-choice, true/false, direct-answer), progress reports, and strong/weak-topic insights.
- Long-term memory and context through Cogneer, with an optional downloadable PDF of questions, user answers, and correct answers.

Tutor Mind — AI Study Companion

Devpost · Prometheus September AI 2

React · Node.js · Express.js · Gemini API

- AI study companion built around a Study → Practice → Evaluate → Improve flow that works directly with a student's materials.
- AI summaries, explanations, flashcards, quizzes, exam mode, weak-topic detection, and a Learning Twin built from accumulated performance context.
- Separate prompt/service functions per learning task, with structured JSON validation before anything is stored.

Browser AI Agent

Personal Experiment

Python · browser-use · Playwright · Gemini

- AI browser automation experiment: browser-use 0.13.7 with Playwright driving a real browser session.
- Explores agentic web automation and free, open-source AI agent tooling.

CERTIFICATIONS

AI Fluency for Students — Anthropic Academy · Claude 101 — Anthropic Academy · AI Fluency: Frameworks & Foundations — Anthropic Academy

EDUCATION

Jamhuriya University of Science and Technology

Expected 2029

Bachelor of Science in Computer Applications · 2nd year

Relevant coursework: Web Development, Computer Programming, Database Systems

SOFT SKILLS & LANGUAGES

Soft skills: Problem Solving · Analytical Thinking · Professional Communication · Teamwork · Adaptability · Time Management

Languages: Somali (Native) · English (Professional Working Proficiency) · Arabic
